FABRIC COLLECTION

Hyams

Roller Blind, Vertical applications

Features & benefits

- This plain weave fabric has been designed in 12 popular colours to complement the latest Australian interior trends.
- All colours in the range have a tonal satin foam finish to ensure 100% block out making this fabric ideal for bedrooms and home theatres.
- In line with the MULTIVISION® Collection, Hyams fabric can be coordinated with numerous fabric ranges across the LUXAFLEX® Collection allowing you to select coordinating colours in different opacities to suit different rooms throughout the home.
- Hyams fabric is UV resistant and has excellent Solar Optical Properties.
- Hyams fabric has been tested and does not exceed the maximum VOC (Volatile Organic Compound) criteria specified by the Green Building Council of Australia (IEQ-11).
- Guaranteed with a 5 year warranty*.
*Refer to www.luxaflex.com.au for Warranty document.

2.8m x 25m
89mm x 100m
127mm x 100m

Cutting Technique

Ultrasonic, Knife Cut, Aeronaut

Composition and Weight

100% Polyester base cloth with acrylic foam back.
380 gsm +/- 20 gsm

Colourfastness

5 - 7 Blue Scale. All colours have been tested against the Australian Standards for colour fastness to resist fading. [AS2001.4.21]

MULTIVISION® Fabric Collection

The MULTIVISION® Fabric Collection, is a group of fabrics that are perceived to be the same colour tone, but have different opacities. For more information refer to the LUXAFLEX® MULTIVISION® Fabric Collection brochure.

LUXAFLEX® Hyams Energy Efficiency and COMFORT RATING# Guide

COMFORT RATING#	SOLAR OPTICAL PROPERTIES (ASTM E 424-1971)							
	Heat Properties			UV				
COLOUR	TS	RS	AS	TL	RL	AL	TUV	SC
Whisper	0	65	35	0	55	45	0	0.3
Milton	0	30	70	0	25	75	0	0.55

COMFORT RATING# Guide

- ◆ No protection/performance
- ◆◆ Low level of protection/performance
- ◆◆◆ Medium level of protection/performance
- ◆◆◆◆ High level of protection/performance
- ◆◆◆◆◆ Highest level of protection/performance

Heat Protection

UV Protection

Shade Factor

Glare Reduction

COMFORT RATING has been devised by Hunter Douglas Limited with the assistance of Canesis Pty Ltd - an Independent Australian Fibre and Textile Research and Development Company.

SOLAR OPTICAL PROPERTIES

AS	Heat Absorbance (%)	The percentage of solar energy (heat) absorbed by the fabric. The higher the value the more heat is absorbed by the fabric.
RS	Heat Reflectance (%)	The percentage of solar energy (heat) reflected by the fabric. The higher the value the more heat is reflected by the fabric.
TS	Heat Transmittance (%)	The percentage of heat transferred through the fabric. The lower the value the less heat is transferred through the fabric.
AL	Light Absorbance (%)	The percentage of light absorbed by the fabric. The lower the value the more light is absorbed by the fabric.
RL	Light Reflectance (%)	The percentage of light reflected by the fabric. The higher the value the more light is reflected away from the fabric.
TL	Light Transmittance (%)	The percentage of light transferred through the fabric. The lower the value the less light is transferred through the fabric.
SC	Shading Coefficient	The efficiency of a fabric to provide shade. The higher the figure the more efficient at providing shade.
TUV	Ultra Violet Transmittance	The value of ultra violet light going through the fabric. The lower the value the less ultra violet light goes through the fabric.

Care and Cleaning

General Care:

Hyams fabric has an easy clean soft form backing. Dusting with a feather duster is all that is required to keep your fabric looking good.

Stains:

For the removal of dirt and grime, simply wipe fabric skins with a sponge soaked in lukewarm water. If marks are still visible add a little detergent. Then dry gently with a clean sponge.
