

SILHOUETTE® Shadings

LUXAFLEX® Window Fashions is Australia's largest and most inspirational Window Fashions provider for over 50 years. Testing and quality craftsmanship together with a 5 year warranty* makes LUXAFLEX® SILHOUETTE® Shadings the perfect choice for your home.

WHY CHOOSE LUXAFLEX® SILHOUETTE® SHADINGS?

LUXAFLEX® SILHOUETTE® Shadings can be opened for a full, soft focus view, closed for privacy or tilted for light control. Combining the beautiful characteristics of curtains, shades and blinds in a stunning design like no other.

PRODUCT FEATURE

Made from 100% anti-static, dust resistant polyester, LUXAFLEX® SILHOUETTE® Shadings are durable and easy to clean.

Daylighting efficiency is maximised by diffusing and dispersing sunlight throughout the room, which enables lights to be turned off and energy preserved.

Operating systems like PowerRise and ULTRAGLIDE® Lifting Systems enhance child safety and ease of use.

UNIQUE BENEFITS

SILHOUETTE® Shadings are a patented design exclusive to LUXAFLEX® Window Fashions that offer a huge range of colours in both room darkening and translucent fabrics in two vane sizes, 50mm and 75mm.

SILHOUETTE® Shadings Fabric can block UV rays, protecting your interior furnishings from direct sunlight.

You can also coordinate the colour of your shading with LUMINETTE® Privacy sheers for colour coordinated design throughout your home.

"I love living with my LUXAFLEX® SILHOUETTE® Shadings, not only are they easy to clean but I love the light control and privacy they provide my room"...LUXAFLEX® Customer.

WINDOW FASHIONS

Why choose SILHOUETTE® Shadings versus other window covering styles?

- Provides the functionality of two blinds in one shading. Daytime privacy is achieved with two sheer facings which can be tilted to control the degree of light and heat entering into your home, as well as maintain your view. Nighttime privacy is assured when the vanes are fully closed.
- The unique 'S Vane' angles to soften and diffuse the light around the room protecting your floor or furnishings.
- The unique two sheer fabric facings provide high UV reduction with the vanes closed, depending on the type of fabric chosen. The front facing is a fine weave sheer, while the back facing is a more open weave, which provides the best view-through effect.
- The back of SILHOUETTE® Shadings Fabrics are white, providing light reflection, which assists with reducing heat passing into the room. This also provides a neutral appearance from outside regardless of the shading colour inside the room.
- No cords run through the fabric to detract from its simple elegance.

Why choose SILHOUETTE® Shadings versus competitor products?

• A brand you can trust

Hunter Douglas is the owner of the LUXAFLEX® Window Fashions brand, and the original inventor of SILHOUETTE® Shadings, holding world wide patents on the product. A leader in product development and innovation, Hunter Douglas provides the largest range of operating options, fabrics and colours in the market.

• Unique design

Inferior copies may not provide the same fabric technology as they were developed using different techniques for securing the vanes to the sheer.

• Durability

The durability of LUXAFLEX® SILHOUETTE® Shadings is proven with worldwide sales since the 1990s. Copies are relatively new, and do not have the proven durability only time can provide.

• Piece of mind

5 Year Warranty* offered by a reputable manufacturer to provide you piece of mind in the unlikely event you need to make a claim.

The SILHOUETTE® Shadings Range Overview

- Fabric choices of 50mm & 75mm vane sizes
- Fabric choices of translucent & room darkening vanes

Easy to clean

SILHOUETTE® Shadings naturally repel dust and dirt, making them durable and easy to clean. All that is required is a dust or light vacuum to keep your shades looking beautiful.

Colour co-ordination

Matching fabric covered headrail, matching cord and bottom rail & designer Matching fabrics allow you to team a sliding door covered with LUMINETTE® Privacy Sheers with a window covered in SILHOUETTE® Shadings in the same room.

Choice of operating methods

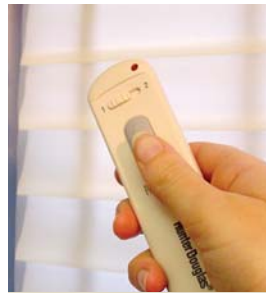

STANDARD CONTROL

Standard control cord loop, secured with a cord tensioner. For enhanced child safety the SILHOUETTE® Shadings cord tensioner must be secured with the pin pulled down before the shade will operate.

ULTRAGLIDE® LIFTING SYSTEM

Exclusive to LUXAFLEX® Window Fashions, the ULTRAGLIDE® Lifting System offers a retractable cord mechanism to maintain a constant cord length when the shade is lowered or raised. This is ideal for child and pet safety as there are no long cords hanging down.

POWERRISE LIFTING SYSTEM

Featuring a battery operated remote control system to raise and lower the blind with the touch of a button. With no exposed cords, the PowerRise & Motorised Lifting Systems are the ultimate choice for convenience and child/pet safety. The PowerRise Lifting System is ideal for applications where wiring is difficult as the blind operates using battery power.

MOTORISED

Features a hard wired motor in the blind headrail that uses house power to raise and lower the shade from commands from a remote or wall switch. This is the premium control choice, and can be wired into home automation systems.
